

GAME PUBLICATION No. 40
GAME-Tropics Publication No. 9

Proceedings
2002 Workshop on GAME-Tropics and Hydrometeorological
Studies in Thailand and Southeast Asia
during 29th – 31st October 2002
at the Dusit Island Resort Hotel
Chiang Rai, Thailand

Organized by
National Sub-committee for GAME-Tropics in Thailand
and
Japan Sub-committee for GAME-Tropics

CONTENTS

	pages
CONTENTS	
PAPERS PRESENTED	1
ORAL PRESENTATIONS :	
Session I : Status of GAME-T/GAME	
Chairman : Dr. Shinjiro Kanae	
Challenges for GAME-T2: Why do we need to start GAME-T2?	5
Taikan Oki	
GAME-T data management report : Introduction of dataset CD-ROM, distributed database server and future plan	7
Yasushi Agata	
Status of the GAME reanalysis and its validation	14
Kiyotoshi Takahashi and Nobuo Yamazaki	
Session II : Highlights 1 : New advanced progress in modeling and observation	
Chairman : Mr. Anant Thensathit	
Southeast Asian climate in the MRI atmosphere-ocean coupled GCM	22
Akio Kitoh	
Long-term rainfall prediction in Chao Phraya river basin	26
Manushiparom Chayanis, Taikan Oki and Shinjiro Kanae	
Session III : Highlights 1 (contd.)	
Chairman : Prof. Dr. Nipon Tangtham	
Atmospheric circulation changes associated with all Thai rainfall during 1951-2000	36
Tetsuzo Yasunari and Hiroshi Takahashi	

Session IV : Highlights 2 : Stable isotope research and new EGAT tower observation

Chairman : Prof. Nobuhito Ohte

Global water isotope circulation modeling with daily validation in Indochina Peninsula.....42
Kei Yoshimura, Taikan Oki, Nobuhito Ohte and Masahiro Koike

Session V : Highlights 3: Radiation and aerosols

Chairman : Prof. Teruyuki Nakajima

A comparative study of the radiative budget characteristics in Asia55
Teruyuki Nakajima, Dohyeong Kim and Tamio Takamura

Remote sensing of cloud, aerosol, and land properties from MODIS: Applications to the
East Asia region59
Michael D. King, Steven Platnick and Eric G. Moody

Session VI : Water budget and water resources 1

Chairman : Mr. Phonchai Klinkhachorn

Thailand tributaries relativity assessment through geoinformatic system and SWAT
modeling (Freeware) : Study on Omkoi district, Chiang Mai province.....62
Hansa Vathananukij, Kittipong Thanasiriyakul and Suwatana Chittaladakorn

Application of VIC-2L model for precipitation – runoff in small basins in Southeast Asia...69
Anond Sanidvongs, Nattapol Srisutasinee, Penjai Sompongchaiyakul,
Wichien Chatupote and Weerasak Weerakant

Water balance of the Mekong river basin during GAME-IOP70
Kooiti Masuda

The distribution patterns of infiltration rates over floodplain area : A case study in the
lower Yom river basin, Thailand78
Sombat Chuenchooklin, Tsutomu Ichikawa and Sa-nguan Patamatamkul

Multitemporal interpolation for spatial distribution of rainfall considering the orographic
enhancement - case study in the Mae Chaem watershed, northern Thailand -91
M. Husni Idris, K. Kuraji, K. Punyatrong and M. Suzuki

Session VII : GPS, Lidar and other new technologies

Chairman : Dr. Somchai Nakapadungrat

Precipitable water vapor variation obtained from GPS data in Thailand 100
Mikio Satomura, Mikiko Fujita, Fujio Kimura, Tosiyuki Nagaegawa
and Teruyuki Kato

Atmospheric boundary layer structure obtained by Lidar from 1997 to 2002 at the
observatory for atmospheric radiation research at Sri Samrong, Sukhothai Province 107
Akkaneewut Chabangborn, Nobuo Takeuchi, Nobuo Sagimoto,
Michio Hashizume and Somchai Nakapadungrat

Session VIII : Land surface flux/ land-atmos interactions

Chairman : Assoc. Prof. Dr. Hansa Vathananukij

Revise an empirical model for estimating evapotranspiration using data of stomata
conductance and canopy height110
Masatoshi Aoki, Daisuke Komori, Kazushi Hayashi, Samakkee Boonyawat,
Panya Polsan, Somnimitr Pukngam and Piyapong Tongdeenok

A proposal for GAME-T PILPS (Project for intercomparison of land-surface
parameterization schemes)..... 111
Shin Miyazaki, Taikan Oki, Yasushi Agata, Shinjiro Kanae
and Katsumi Musiake

The impact of a new land surface scheme on the MRI/JMA98 AGCM114
Masahiro Hosaka

Preliminary measurement research of heat budget and evapotranspiration
of cassava field in Nakhon Ratchasima 118
Samakkee Boonyawat, Masatoshi Aoki, Somnimirt Pukngam,
Toshio Koike, Piyapong Tongdeenok, Komori Daisukae and Somboon Promsan

Seasonal and diurnal variation of wind in the mountainous area at northern Thailand 119
Hideki Takizawa, Chatchai Tantasirin, Nobuaki Tanaka, Masakazu Suzuki
and Nipon Tangtham

Session IX : Climate and its interannual variability

Chairman : Prof. Manabu D. Yamanaka

Climate variability and flood over Cambodia	123
Vannareth Seth	
Monsoon system studies in GAME-II	133
Jun Matsumoto	
Rainfall and temperature patterns in Thailand during ENSO events and links with SOI and SST in the Tropical Pacific Ocean	140
Muntana Brikshavana and Nongnat Ouprasitwong	
Heavy rainfall distribution in Thailand : A preliminary study	141
Hiroaki Takahara and Jun Matsumoto	
A study of the Great Lakes' effects to solar radiation over the earth's surface	147
Chumnong Sorapipatana	

Session X : Atmospheric dynamics

Chairman : Ms. Muntana Brikshavana

Diurnal variation of precipitation over northern Thailand: Radar observation	156
T. Satomura, K. Okumura, T. Oki, Warawut Khantiyanan and TMD Chiang Mai Radar staffs	
Influential of river basin features on seasonal rainfall over Thailand	160
Prasert Aungsurattana	
Seasonal and diurnal wind variation observed by the KMITL wind profiler	168
Yuichi Ohno, Nipha Leelarui, Apinan Manyanon and Narong Hemmakorn	
Orographic rainfall in a tropical mountainous region, the Mae Chaem watershed	172
Koji Dairaku, Seita Emori, Taikan Oki and Katumi Musiake	
Monsoon dynamics over Southeast Asian seas from QuikSCAT/sea winds data	184
Absornsuda Siripong and Chaichan Sitthiworanun	
Diurnal cycle of movement of convective cloud systems over Sumatera Island	204
Namiko Sakurai, Fumie Murata, Manabu D. Yamanaka, Hiroyuki Hashiguchi, Syuichi Mori, Jun-Ichi Hamada and Yudi Iman Tauhid	

Session XI: Monsoon onset

Chairman : Prof. Jun Matsumoto

An observational program for understanding the role of a temperature inversion layer in the onset of the rainy season in Indochina.....	212
Yoshihiro Tachibana, Shinya Ogino, Michio Hashizume, Hideyuki Fujii and Toshio Koike	
The relationship between upper wind direction and the onset date of southwest monsoon over Thailand	214
Chamnong Kaeochada	
The convective activity before the onset of monsoon over the Indochina Peninsula in the GAME-IOP year.....	215
Masashi Kiguchi and Jun Matsumoto	

Session XII : General discussion

Chairman : Dr. Taikan Oki and Prof. Takehiko Satomura

General Discussion.....	223
Takehiko Satomura and Taikan Oki	
Workshop recommendation	225
Taikan Oki	
POSTERS PRESENTED	226

POSTER PRESENTATIONS :

Session I : Highlights 2 : Stable isotope research and new EGAT tower observation

Chairman : Prof. Nobubito Ohte

Temporal variation of stable isotopes in precipitation at Bangkok, Thailand.....	230
Kimpei Ichiyonagi and Manabu D. Yamanaka	

Session II : Poster introduction : Hydrology and water resources research

Chairman : Mr. Panya Polsan

A reservoir operation model for global river routing network model - Application to Chao Phraya River -.....	239
Naota Hanasaki, Shinjiro Kanae, Taikan Oki and Katumi Musiake	

Magnitude and frequency of floods and land use in Petchaburi river basin.....	246
Seree Chanyotha, Somchai Nakapadungrat and Srilert Chotpantararat	
Annual trend of solar radiation distribution in Thailand	249
Naruemol Kaewjampa, Samakkee Booyawat and Masatoshi Aoki	
Diurnal variation of precipitable water over a mountainous area in Sumatra Island	250
Peiming Wu, Jun - ichi Hamada, Shuichi Mori, Yudi I. Tauhid, Manabu D. Yamanaka and Fujio Kimura	
Applicability of the ISCT and ADMS models for Thailand	262
Harvey, E. J., Harvey, N. W., Panun, M and Sunthi, S.	

Session III : Land surface flux / land – atmos interaction

Chairman : Assoc. Prof. Dr. Hansa Vathananukij

Estimating maize potential yield on field scale in Nakhon Ratchasima Province under climate change	271
S. Baimoung and T. Oki	
Seasonal trend of heat budget of non-irrigated paddy field in Sukhothai, Thailand	273
Komori Daisuke, Aoki Masatoshi, Hayashi Kazushi, Samakkee Boonyawat, Panya Polson, Ishida Tomoyasu, Sornnimit Pukngam, Piyapong Tongdeenok, Somboon Phomsan, Ratchanoewan Rehula, Katsumi Musiake and Toshio Koike	

Session IV : Poster introduction: Atmospheric dynamics

Chairman : Mr. Warawut Khantiyanan

The effects of SST on rainfalls in Thailand	281
Boossarasiri Thana	
Diurnal cycles of local circulation and cloud activity observed at Serpong, West Java, Indonesia	289
Ryuzo Araki, Manabu D. Yamanaka, Yuichiro Oku, Fumie Murata, Shin-Ya Ogino, Hiroyuki Hashiguchi, Tien Sribimawati, Mahally Kudsy and Findy Renggono	
Observation of convective cloud organization with wind profilers, rawinsondes and GMS: technical introduction and some case study in a subtropical front	296
Yasuko Umemoto, Michihiro Teshiba, Yoshiaki Shibagaki, Hiroyuki Hashiguchi, Yoshinobu Tanaka, Manabu D. Yamanaka and X-BAIU-02 observation group	

Inter – annual variation of tropical cyclone approaching Indochina	301
Hideaki Shoji and Jun Matsumoto	

The structure of climatological monsoon break over Southeast Asia in boreal summer	306
Hiroshi Takahashi and Tetsuzou Yasunari	

ANNEX

I Workshop Proposal	312
II Workshop Programme	316
III List of Participants	322
IV Speeches	336
V Abbreviations	341
